

TASMANIAN KARTERS

At the most recent meeting of the AKA Tasmania some important changes were put in place for events run in Tasmania during 2009. *bear in mind they are a result of trying to answer some problems created by our relative small numbers and will not relate to State Titles that will be in Smithton this year.*

**The first will be that Midgets will not run as per the 2009 Manual. In lieu of this we will run Cadets with the following engines and weights;
Comer S80 at 2008 Engine Specs at 90kg
Comer SW80 at 2009 Engine Specs at 90kg
Yamaha J with 13mm restrictor at 95kg**

Leopard and Rotax will run as Tag and on the one tyre. The tyre of choice is currently being tested and will be notified immediately when the decision is determined.

Over 40 J will still run, however weights are being discussed with the competitors and also will be notified with the Tag tyres.

AKA Tasmania have worked hard and discussed at length these decisions to improve the quality of racing and the format of events. Not everybody will agree what has been decided, the events and clubs are bigger than the individual and as such we are trying to cater for all of the concerns and suggestions that we continue to receive throughout each year.

This information will be circulated via the list of email addresses and posted onto the club's websites. For further information please call Steph on 0418 130 691 or contact your club delegate.
